RBBlangenVintage 59/AlNiCo II & V

Model: *RBBlangenVintage* handmade HB-S-HB set – **59/Alnico** (Gold-plated magnets is not available)

This set of H-S-B 59/Alnico are for sale even separately.

OUTPUT HB: Medium to high Vintage

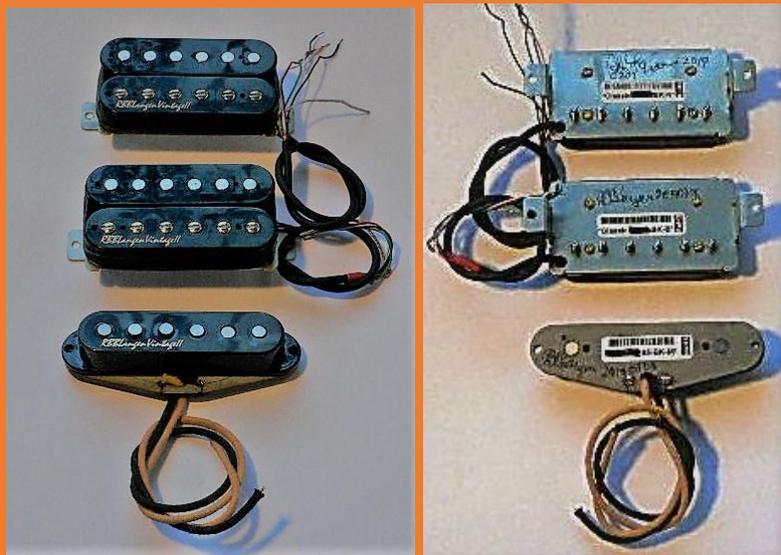

D.C. RESISTANCE: **Alnico II** - Neck 7,4 Ω / **Alnico V** - Middle 6,3 Ω / **Alnico V** - Bridge 8,8 Ω

MAGNETS: (Neck HB) Sand-casted **Alnico II** – (Middle S) Sand-casted **Alnico V** with raised D and G.
(Bridge HB) Sand-casted **Alnico V**

The building process: Is very much like like the pioners did in the 1950's & -60's and of course, we use the vintage correct specifications and materials. E.g. our HB bobbins are made of butyrate, the baseplates are made of high quality German silver with 18% nickel, use of US-made magnetwire with plane enamel and heavy formvar coating, real **AlNiCo** magnets, lacquered fiber bobbins for single pickups, and many more.

We plan to play in the top league with the *RBBlangenVintage* handmade pickup's!

The most versatile balanced **59/Alnico**-set, with **Alnico II** HB magnets as neck pickup, for smooth sounds, clear and crunchy, and a bridge HB pickup equipped with **Alnico V** magnets for a powerful leadsound with a great vintage character.

The **59/Alnico** Singel pickup features, as the whole set, have sand-cast magnets, but allso raised D- and G-magnets on the middle single, typical for this period, and this singel has a biting and rock'n roll like sound character, with a great dynamic respond and fat attack. With above **59/Alnico** Singel pickup, the set of HB-S-HB is complete. We pay a tribute to the famouse era, when the wire changed from heavy formvar to plain enamel and when the black bottom plate was substitutet for a grey one.

RBBlangenVintage

The *RBBlangenVintage* HB-S-HB set – **59/Alnico** set are not Wax-Potted.

With a special damping technique we avoid to wax-pot our **59/Alnico** humbuckers. Wax-potting have two sides and gives, on one hand, a pickup feedback resistance, but also enhances capacitative resistances

which, on the other hand, results in less transparency, less dynamic response and less heights. We deliver the real *RBBlangenVintageII* sound without wax-potting, and plan to play in the sound-quality top league!

RBBlangen Sensus II electric guitars with *RBBlangenVintageII* pickups will be ordered on www.artesguitar.com Welcome!
